

## MajorTPS Telecom Power Systems 5U

### Product Features

- **Complete package**
  - Parallel rectifiers, DC distribution & LVD.
- **Compact**
  - Only 5RU, mounts in 19" or 23" rack.
- **Flexible**
  - Designed to operate with or without batteries.
- **High reliability**
  - Parallel redundant rectifiers.
- **Ease of installation**
  - Pre-wired and tested for fast installations.
- **Temperature compensation.**

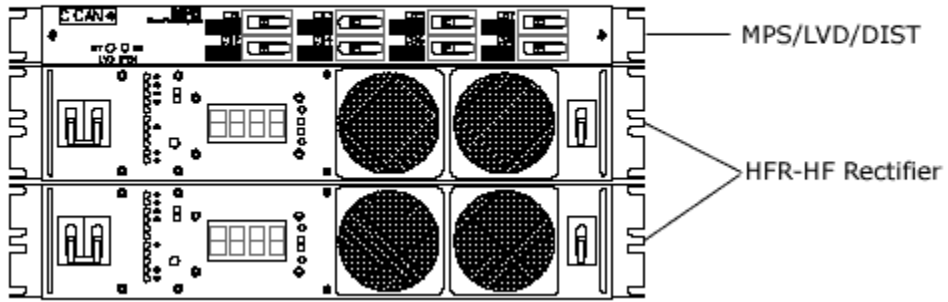

### Product Specifications

- **System Capacities**
  - 24 VDC - 50, 100 & 200 Amps
  - 48 VDC - 50, 50 & 100 Amps
- **Integrated Output Distribution**
  - 8 alarmed circuit breakers
- **Metering & Status**
  - LED status indicators and Full metering
- **Remote Control and Monitoring**
  - Status monitoring & control of rectifier functions using advanced software
- **Warranty**
  - Comprehensive 24 month

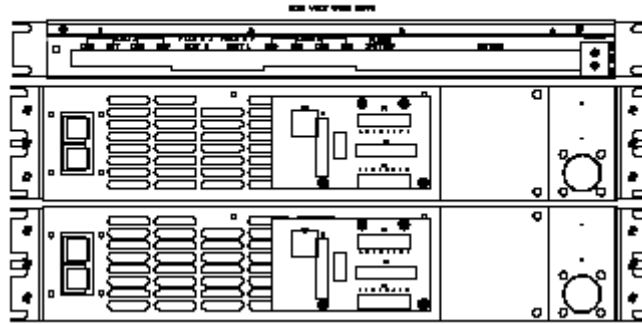

### Model Selection Guide

MajorTPS Systems	24 VDC Systems		48 VDC Systems	
Model#	MajorTPS 100/24SYS	MajorTPS 200/24SYS	MajorTPS 60/48SYS	MajorTPS 100/48SYS
<b>Input:</b>				
<b>Voltage</b>	185-276 VAC, Single Phase, 47-63Hz, 0.99 pf			
<b>Protection</b>	Circuit breaker			
<b>AC Connections</b>	2 Twistlock			
<b>Output:</b>				
<b>Maximum Current:</b>	100 Amps	200 Amps	60 Amps	100 Amps
<b>Protection</b>	8 Breakers			
<b>Noise</b>	22 dbRNC			
<b>Connections</b>	Terminal block			
<b>Low Voltage Disconnect</b>	Included			
<b>Physical:</b>				
<b>Rack Units</b>	5RU			
<b>Rack Mounting</b>	19" or 23"
